

GREENchoice™
SEALANTS

WeatherMaster™ Sealant. Available in over 175 colors, with a focus on **GREEN.**

Titebond® WeatherMaster Sealant has been specifically formulated to outperform all other sealant technologies, including silicones and urethanes. This superior polymer formulation provides the best possible performance on vinyl siding, windows, doors, roofs and vents.

WeatherMaster is currently available in over 175 colors, all of which match today's popular siding colors regardless of the material or manufacturer. It is waterproof, extrudes easily in extreme weather conditions, is UV-resistant and paintable in one hour.

WeatherMaster is part of the Titebond GREENchoice family of professional-grade adhesives and sealants. Performance without compromise and integrity to preserving the environment are at the heart of every GREENchoice product.

the right choice

Better for you
Better for the environment
Better for building
BETTER. PERIOD.
